RUSH FOR PROFITS SENDS LIST DOWN

Notwithstanding Efforts to Lift Prices, Market Ended Generally Lower.

STOCKS RISE, BUT FALL BACK

Hill's Denial Did Not Deter Rush in Early Hour-Condition of Money Market.

(By Associated Press.)

NEW YORK, April 15.—After yester-day's furious speculation in stocks a movement to take profits was indicated for to-day and it developed accordingly. for to-day and it developed accordingly. Prices ended generally lower than last night and the trans-continental group and stocks which have moved in sympathy with that group are not the least sufferers. Notwithstanding the buoyant upshoot in the first hour, St. Paul alone of the group showed a meagre gain on the day after having been at one time. of the group showed a meagre gain en the day after having been at one time more than two points up. Union Pacific, New York Central and Illinois Central were also lifted a point in the early market, but closed at net losses of over a point for the first two and of 21-2 for the hast. In the furb market Northern Securities was rushed up to 185 3-8, but fell back in the last to 181 5-8. The whole market centered around these movements and was not in any degree responsive to any of the news developments. A denial by the head of the Great Northern and of the Northern Securities companies of yesterday's rumors of a stock dividend by the former company had no influence in deterring the continuance of the rush to buy the stocks concerned at first, nor did the news favorable to values serve to hold the later market. The trading represented purify an episode in the progress of an infrestrained speculation. The increase of bank deposits by roakon of the loan expansion did not impair the surplus as the cash increase was more than sufficient to meet the added requirement. Mercantile reviews confirmed other evidence of active and prosperous trade conditions. The money market was nominal, as is usual on a Saturday, but foreign exchange moved up several points.

The total sales stocks amounted to 700,-000 shares.

The demand for machine picked peanuts has not been noticeable. Trade in that grade of nuis has been duil, and there are many more bags of them in the market than will be sold for several weeks. Commission merchants are inclined to doubt the reports that the country is stripped of farmers stock of peanuts. Only of the peanuts will appear later, as they have done sever escaon herefore, when the drained for them became urgent and the price correspondingly high. The cleaners have large stocks, especially of the lower grades.
